PerfectFit hinges adapt to any door and plinth*

AirDry
Allows natural airflow in towards the end of the cycle ensuring dry dishes

Beam on Floor
Beam-on-Floor shows you when its time to unload.

BENEFITS

MAKE ROOM FOR MORE
The MaxiFlex drawer accommodates everything from spoons to spatulas. From multiple cutlery sets to over-sized utensils, the flexible dividers mean you can customise the drawer according to the load. Flatware is kept separate from larger items and the added depth increases the capacity for each cycle.

ALL CORNERS REACHED
The SprayZone function intensively cleans your cookware, with three-times better cleaning performance compared to our standard program. You don't need to pre-soak your heavily soiled dishes. The powerful water pressure brilliantly cleans everything placed within the dedicated space, every time.

THE GLASS-CARE SPECIALIST
SoftGrips and SoftSpikes gently support your delicate glasses, safeguarding them from damage, while the dedicated glassware program means you no longer have to hand wash. SoftGrips gently secure each individual glass stem, while the rubber SoftSpikes cushion glassware from vibration during the wash cycle so they do not move around.

MAX COVERAGE. MAX CLEAN
SatelliteClean shoots multiple jets of water into every corner of the dishwasher to ensure every item is thoroughly cleaned. The double rotation movement continuously changes the angle of the water jets to ensure maximum coverage, delivering outstanding cleaning results.
