SenseFry	MaxiZone	Bridge function	PowerBoost
Touch and slide controls Touch the control bar at the necessary heat setting	Hob2Hood technology	STOP + GO function	Timer and minute minder
Auto warm up function	Auto pot detection	Safety child lock	

BENEFITS

3 YEAR WARRANTY
Because peace of mind should last as long as great design, this product has three years of trusted Electrolux support. *Available for purchases after 1 March 2026.

EVEN FRYING. AUTOMATICALLY.
SenseFry measures heat levels and makes automatic adjustments under the pan to maintain the ideal temperature for even cooking results. Now its easy for you to whip-up evenly browned pancakes and juicy steaks at home.

COMBINE ZONES FOR MORE FLAVOUR
The Bridge function allows you to combine two separate cooking zones to create a single large surface. With the temperature and time settings automatically aligned, its ideal for making the most of planchas or roasting pots.

SEAR. STIR-FRY. BOIL.
The PowerBoost function gives you an intense heat boost when needed, before automatically dropping to the highest power level. Perfect for pan searing fish, stir-frying crunchy vegetables, or bringing water to the boil quickly.

HANDS-FREE HOOD
Hob2Hood automatically switches on your extractor hood when you start cooking and adjusts the fan speed based on how you are using your hob. This means you can boil, sear or stir-fry without having to touch your hood with greasy fingers.

INTUITIVE TOUCH CONTROLS
Sensitive touch controls take you from simmering to boiling and back again, almost instantly. This controllability allows you to apply precise changes that can take your dishes from tasty to truly delicious. Pan-sear steak with intense heat, and then instantly drop the temperature down to protect that beautifully juicy, medium-rare texture.
