AI CoolAssist	Metal MultiFlow	High temperature alarm	Door alarm
GreenZone with auto humidity control	QuickChill function	QuickFreeze function	

BENEFITS

A FRESH, ODOUR-FREE FRIDGE
FresherAir carbon filter helps preserves the natural aromas of your stored food and keeps the refrigerator smelling fresh. This filter effectively absorbs unpleasant odours and reduces any transfer between ingredients.

FOOD PROTECTED ON EVERY SHELF
Cooling 360° helps protect the food quality by optimising stable temperature and humidity levels throughout the entire fridge. Multiple air channels on the rear wall actively circulate cold air to every corner.

PRESERVE FRESHNESS FOR LONGER
Long-lasting freshness, built in. The sealed GreenZone drawer controls humidity automatically removing excess moisture to lock in taste and texture. Helps Fruit and vegetables stay crisp for longer, so less ends up in the bin.

Save up to 10% energy*
Save up to 10% energy* with our smart fridge! AICoolAssist adjusts settings to reduce the energy consumption. *Test performed on the EQE5757BB comparing the 24 hour consumption when the CoolAssist function is activated with the default factory mode. Actual energy saving may vary, depending on environmental temperatures.

CUSTOM COOLING WITH MULTICHILL
From party drinks to dinner prep, MultiChill gives you three set temperatures: 3°C for cheese and cold cuts, 0°C for refreshing beverages, and -2°C for meat and fish that stay fresh longer.

CHILLED WATER, INSTANT ICE
Enjoy cool refreshments at any time. The in-door dispenser provides chilled water instantly, while the Auto Ice maker keeps plenty of fresh ice ready at hand.
