FILTER:
2 x Fine Mesh

COLOURS

Modular system gives you the freedom to purchase optional accessories such as glass hangers and cup hooks for easy integration with the hood.

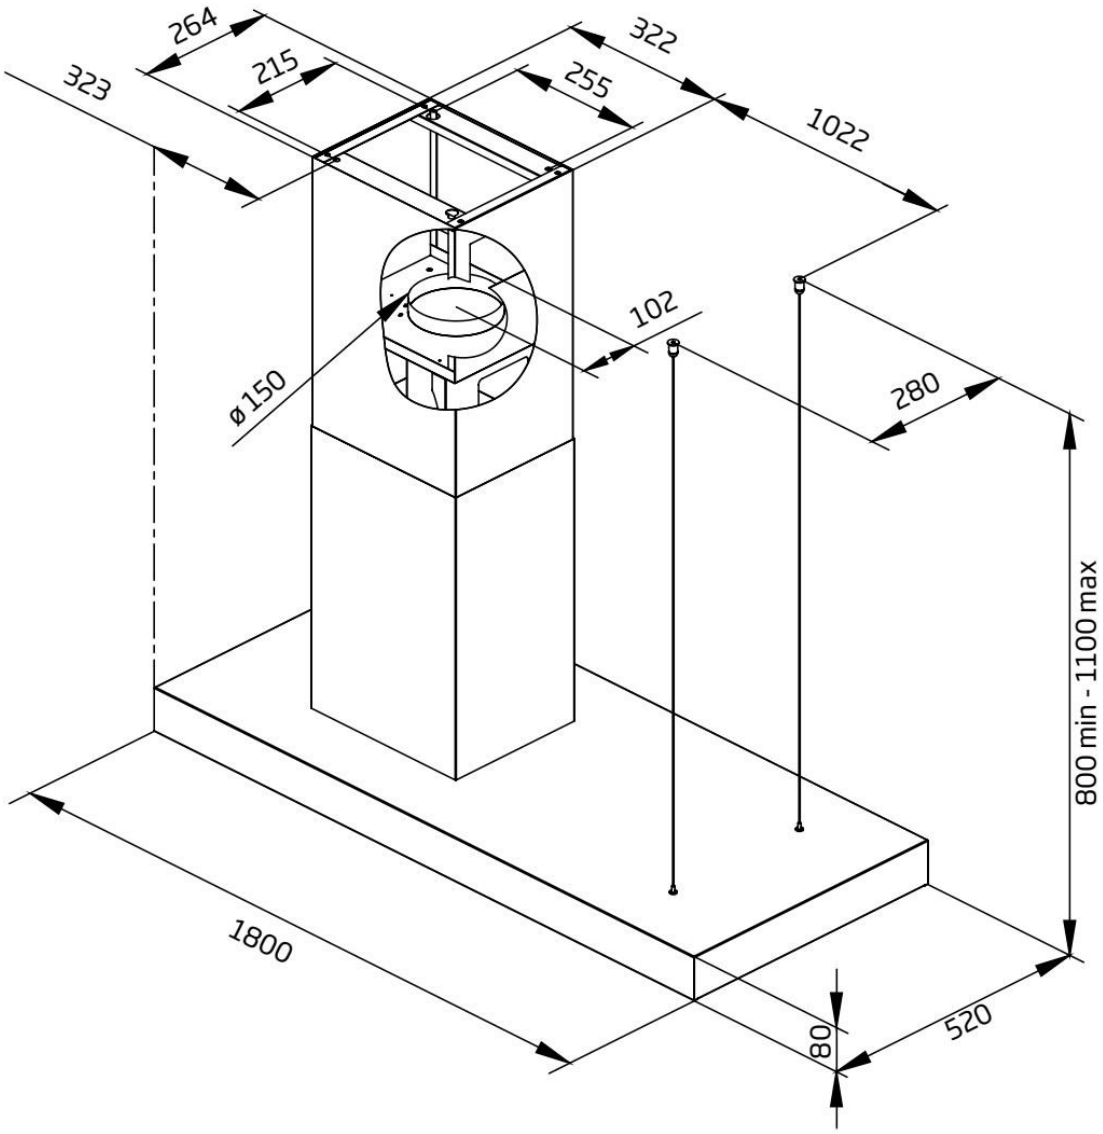

Extra space. The perfectly even surface of the hood is a convenient place to store the most frequently used kitchen accessories.

Warm2ColdLED lighting has adjustable lighting colour - from warm to cold (2900K - 6000K). The warm colour of light, most similar to sunlight, does not strain the eyes and puts you in a good mood.

Touchless Gesture Control lets you operate the hood and its functions without having to physically touch the control panel. The Nova also comes with a remote control.

Runs virtually silent. The energy-efficient motor system uses up to 95% less energy compared to traditional motors of the same extraction rate. Keeps kitchen air fresher for longer.
