Westinghouse WDV656N3WB

Product Details

FEATURES

Sensor dry
This new sensing technology monitors the moisture content of clothes throughout the drying cycle, when the clothes are deemed to be dry the machine automatically turns off, saving time and unnecessary use of energy.

Easy to use rotary dial control

Time drying

Front lint filter

Front or rear venting

Wall mounting kit included

Durable stainless steel drum

Auto cool down
The auto cool down forms a part of the final drying cycle. This reduces creasing of clothes and provides a safety feature.

BENEFITS

Sensor Dry
Senses the residual moisture in the clothes and automatically stops when the desired dryness is achieved. This protects your clothes by ensuring they aren't over dried and saves energy by using the exact amount of energy required for any load size

Reverse Tumbling Action
Tumble action alternates clockwise to anti-clockwise, reducing clothes tangling and bunching together, so they dry more evenly.

Auto cool down
The auto cool down forms a part of the final drying cycle. This reduces creasing of clothes and provides a safety feature.
