Product Details

FEATURES

BoilProtect	Hob2Hood	PowerBoost	Pause
6.5kW rated input power	QuickCook Timer	Touch control	Residual heat indicator
Child safety device	Easy clean ceramic surface		

BENEFITS

No more boiling over
There are more exciting things to do than watching water boil. BoilProtect detects rising bubbles and automatically reduces to a low simmer. No more constant monitoring so you can focus on the flavours. Applies to stainless steel and enamelled pots filled with water only.

Clear the air with Hob2Hood
With Hob2Hood technology, compatible rangehoods work seamlessly with your induction or ceramic cooktop to clear your kitchen of cooking smells and steam. As you start cooking, the rangehood will automatically turn on then intuitively adjust the fan speed and airflow to match your cooking. How's that for hands-free convenience?

Hold everything with our clever Pause function
We know that family life is full of distractions. That's why you'll appreciate our clever Pause function. Simply touch the Pause icon on your cooktop and all operating induction zones will drop to the lowest setting. When you're ready to go again, hit Pause again and settings will return to where you left off.

Zero to Boil in no time
With PowerBoost, you can rapidly boil a pot of water or quickly heat up a frying pan. Spend less time waiting and more time creating your favourite meals.

Transition to induction with ease
If switching to an induction cooktop is on your to-do list, you can upgrade with extra ease if your new induction cooktop shares the same rated input power as your old ceramic or electric cooktop.

Timed to perfection
Never over-cook or burn dinner again. Just set the cooking time and your cooktop will automatically turn the heat off for you.
