Product Details

FEATURES

Hob2Hood	Triple Zone	Touch on glass controls	Pause
QuickCook Timer	2.3kW powerful zone	Residual Heat Indicator	Child safety lock
Easy clean ceramic surface			

BENEFITS

Clear the air with Hob2Hood
With Hob2Hood technology, compatible rangehoods work seamlessly with your induction or ceramic cooktop to clear your kitchen of cooking smells and steam. As you start cooking, the rangehood will automatically turn on then intuitively adjust the fan speed and airflow to match your cooking. How's that for hands-free convenience?

One zone, three sizes
The Triple Zone adapts to suit different cookware, from small pans to larger pots. With three adjustable sizes, you get the flexibility to cook with what you need, giving you more control and better results every time.

Easy touch-on glass control
Total control is at your fingertips with a simple touch on the easy-clean glass control panel.

Hold everything with our clever Pause function
We know that family life is full of distractions. That's why you'll appreciate our clever Pause function. Simply touch the Pause icon on your cooktop and all operating induction zones will drop to the lowest setting. When you're ready to go again, hit Pause again and settings will return to where you left off.

Timed to perfection
Never over-cook or burn dinner again. Just set the cooking time and your cooktop will automatically turn the heat off for you.

Easy Clean Ceramic Surface
Not only aesthetically pleasing, the full glass ceramic hob with touch controls is easy to use and clean and eliminates dirt traps.
