All installations should be carried out by a qualified tradesman in compliance with the National Plumbing & Drainage Code and any State or Local Authority Regulations, in accordance with AS/NZS 3500 series of standards and AS/NZA 6400. All measurements are in millimetres and are subject to change without notice. For ceramic products, please allow +/- 10mm tolerance for manufacturing variance. Please refer to fienza.com.au for the latest product specification.

FIENZA.COM.AU Item Code: K1223 | Updated: 23/05/2025

fienza INSTALLATION GUIDE

1. Parts required to mount cistern to pan.

2. Attach cistern bolts into pan. Tighten from underneath.

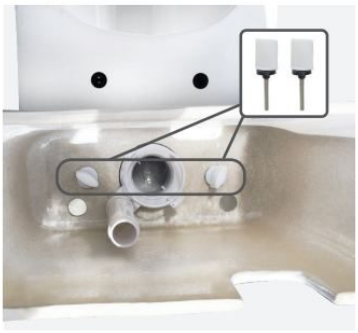

3. Tighten the basket nut and then fit the rubber donut.

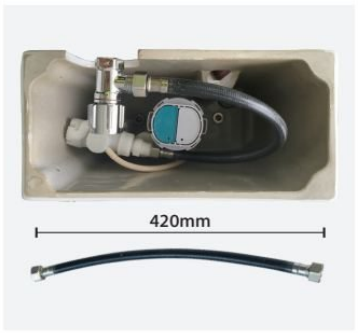

4. Sit cistern onto pan.

5. Use supplied bolts to fasten cistern to pan.

6. **TOP INLET SETUP:** Use 420mm flexi hose.

S-Trap Installation

1. The S-pipe should be put into position and cut to suit your set out, then attached to the wall using the supplied threaded fitting. This clips to the back of the pipe and has a mounting plate which can be attached to the wall using screws (not included).
2. Push the pan hard into position to ensure the ceramic outlet is pushed into the S-pipe until a secure fitting is reached.

PLEASE DO NOT SILICONE PAN TO FLOOR UNTIL TOILET HAS BEEN CHECKED FOR LEAKS.

All installations should be carried out by a qualified tradesman in compliance with the National Plumbing & Drainage Code and any State or Local Authority Regulations, in accordance with AS/NZS 3500 series of standards and AS/NZA 6400. All measurements are in millimetres and are subject to change without notice. For ceramic products, please allow +/- 10mm tolerance for manufacturing variance. Please refer to fienza.com.au for the latest product specification.
