Matte Black

PLEASE LEAVE THIS GUIDE WITH THE OWNER

All installations should be carried out by a qualified tradesman in compliance with the National Plumbing & Drainage Code and any State or Local Authority Regulations, in accordance with AS/NZS 3500 series of standards and AS/NZA 6400. All measurements are in millimetres and are subject to change without notice. For ceramic products, please allow +/- 10 mm tolerance for manufacturing variance. Please refer to fienza.com.au for the latest product specification.

Pages from Fienza's own specification. Ask us about this product, we're happy to help.

INSTALLATION GUIDE

Cistern Installation

Please consult the installation guide supplied with your chosen in-wall cistern to install this toilet suite.

The technical drawings opposite provide relevant dimensions for installation.

IMPORTANT:
When marking inlet positions, please note that dimensions provided are from finished floor and wall levels (e.g. finished tile surfaces).

S-Trap Installation

1. The S-pipe should be put into position and cut to suit your set out, then attached to the wall using the supplied threaded fitting.
   This clips to the back of the pipe and has a mounting plate which can be attached to the wall using screws (not included).
2. Push the pan hard into position to ensure the ceramic outlet is pushed into the S-pipe until a secure fitting is reached.

PLEASE DO NOT SILICONE PAN TO FLOOR UNTIL TOILET HAS BEEN CHECKED FOR LEAKS.
